Re: *Reference*

My name is Jamie McDonald. I have been a CnC Machinist for over 10 years at G & G Joinery.

Within the last six months, we have purchased a Silverline Waterjet from Performance Waterjet.

It is incredibly easy to operate, very little maintenance required, and next to no downtime

This machine has increased productivity and efficiency in our workshop by nearly 50%.

I would have to say that this very versatile machine is one of our best investments to date.

The team at Performance Waterjet has been exceptional. Their after sales support is brilliant, and replacement parts have been shipped overnight.

Overall we are extremely happy with their product, and would recommend PWJ to anyone.

Well done, to the team at PWJ. Particularly Lester & Matthew.

Regards,

Jamie McDonald

G & G Joinery / Ezy Rock Tops

Kind Regards,

J.C McDonald
